**Proclamation**

In life and death we belong to God.  
Through the grace of our Lord Jesus Christ,  
The love of God, and the communion of the Holy Spirit,

Creator God, this earth is miraculous and beautiful. Forgive our confusion and inaction as we confront the challenges of climate change. In the light of your truth, seen so clearly in the life and teaching of Jesus, help us to re-examine ourselves and our lifestyle choices and see clearly the implications of how we live on all that sustains life on this earth. May we follow your lead in caring for every aspect of this precious world, which you made, and love.

**Postlude**

"From My Inmost Heart,"  
Johann Christoph Bach

The violence that exists in the human heart is also manifest in the systems of illness that we see in the Earth, the water, the air and in living things.

**Pope Francis**

We are the first generation to be able to end poverty, and the last generation that can take steps to avoid the worst impacts of climate change. Future generations will judge us harshly if we fail to uphold our moral and historical responsibilities.

**Ban Ki-moon**

I used to think the top environmental problems were biodiversity loss, ecosystem collapse and climate change. I thought that with 30 years of good science we could address those problems. But I was wrong. The top environmental problems are selfishness, greed, and apathy ... and to deal with those we need a spiritual and cultural transformation – and we scientists don't know how to do that.
